Hi Szymon,

Good job on the report, here are some points to remember next time.

- This issue ends with an error page opening so you would mention that in the actual results.

- Write the full error message as at see you have only added a single line, you would also translate the error message to English.

- No need to make any changes for now just remember that in the future.

Hi Szymon,

Good work on this report, keep it up

Thanks,  
Teddy

Done ! :)

2 years ago (06/14/2021) by Teddy Kimosop (TTL)

Hi Szymon,

Thanks for making the changes. However there are still a few mistakes in the report, please fix the mistakes listed below:

- Ignore my previous suggestion and change the bug type back to 'Functional'

- Please remove the last step in the actions performed field since it is not a step to reproduce the issue.

Click "Confirm all requested info is added" after you finish fixing your report.

Thanks,  
Teddy

Hi Szymon,

Thanks for reporting this issue, but you need to correct some mistakes.

To find out what the mistakes are, please review these points in the article below:  
2.1(Performance), 3.5, 9.1<https://www.utest.com/courses/bug-report-information-fields>

- To fix the content of the report: Click Actions > Edit Issue > Fix the report > Submit Issue.

- To upload and remove attachments: Open the report scroll down to the Attachments section > Choose Files > Upload the new attachment and delete the old one (No need to click on Actions > Edit to upload an attachment).

Click "Confirm all requested info is added" after you finish fixing your report.

Thanks,  
Teddy
